MISS PRIOR, LEFT, AND MRS. YOUNG
Miss Prior Wins Homemaker Award
Because she finished
first in a written knowl-
edge and attitude examina-
tion for senior girls Decem-
ber 5th, Suzanne Prior has
been named the 1968 Betty
Crocker Homemaker of
Tomorrow for the Elba
High School, according to
her home economics teach-
er, Mrs. Mary P. Young.
Suzanne's achievement
has made her eligible for
state and national scholar-
ship awards.
The 603,798 girls from
15,079 schools registering
for the 1968 Search
established a new record

Measles Eradication Underway

COUNTY TO GIVE SHOTS THIS MONTH
The Coffee County Health Department in co-operation with the Coffee County Medical Society will conduct a mass measles vaccine program in the county on January 24, 25 and 26th, Dr. G. D. McLeod, County Health Officer, stated that this would be part of a nationwide measles eradication program. Without this type program, Dr. McLeod continued, projections through 1974 show that the accumulated number of measles cases will top 7,000,000. During the same period of time, as a result of measles complications, there will be about 7,400 cases of encephalitis, 2,300 cases of mental retardation and some 730 deaths. With mass immunization programs, the accumulated number of measles cases during the next ten years could be reduced by 90%. And by 1969 encephalitis, mental retardation and death due to measles could be virtually eliminated. All children from 12 months of age through the six grade school are eligible for free vaccine.

Children that have already had red measles or the measles vaccine are adequately immunized and do not need additional protection, however, red or seven day measles should not be confused with small three day measles. If there is any doubt as to the type measles a child has had, it is recommended that they take the vaccine. Children should not have the vaccine that are sick with a fever, allergic to eggs or egg products or under treatment for some chronic disease.

Several specially trained teams from the State Health Department will work with local health nurses in administering the vaccine. Hypo-syringe injectors will be employed during the program which will eliminate the use of needles and syringes and make the entire operation much faster and less painful to the child. Arrangements have been made with the City and County Superintendents of Education to vaccinate school children from their classrooms. Dr. McLeod emphasized the fact, however, that no child would receive the vaccine without a signed permission slip from their parents or guardian. Parents with pre-school children are encouraged to take their children to the nearest school scheduled in their community.

Clinic schedules are listed as follows: January 24, 1968, College Street School, Hillcrest School, Mount Pleasant School, Goodman Elementary School, Holley Hill School, Pinedale School. January 25, 1968, Carroll Street School, Elba Elementary School, Elba High School, New Brockton School, Mulberry School. January 26, 1968, Warren Smith School, Kinston School, New Hope School, Zion Chapel School.

AT BIRMINGHAM-SOUTHERN

Scholarship Day Is Announced

Birmingham - Southern College's annual Scholarship Day, when high school students compete for four-year scholarships valued at \$4,000 each, will be held Feb. 10.

President Howard M. Phillips said the College will award five Phi Beta Kappa Scholarships under a program that is 25 years old this year.

High school seniors are invited to come to the Hill-top campus in Birmingham for a day of tests, interviews and tours of facilities. Registration opens at 8 a.m., examinations begin at 9 a.m. and the names of finalists will be announced at a 12:30 p.m. luncheon.

Deadline for reservation is midnight Friday, Feb. 2.

The names of scholarship winners will be announced shortly after April 1.

There are no restrictions on applicants except that the student must finish high school not later than January 1, 1969 and must not have had any college work. The examination is of a general nature designed to determine a student's preparation and ability to do college work.

Reservations may be sent to Robert Dortch, Director of Admissions, Birmingham - Southern College, Birmingham, Ala. 35204.

MISS PRIOR, LEFT, AND MRS. YOUNG

Miss Prior Wins Homemaker Award

Because she finished first in a written knowledge and attitude examination for senior girls December 5th, Suzanne Prior has been named the 1968 Betty Crocker Homemaker of Tomorrow for the Elba High School, according to her home economics teacher, Mrs. Mary P. Young. Suzanne's achievement has made her eligible for state and national scholarship awards.

JAYCEES PROMOTE MEASLES VACCINES

More Than Half of the children who have measles suffer some form of brain involvement, as indicated by abnormal electroencephalographs taken during the course of the disease. Though the eggs go back to normal when the children have recovered from the measles, researchers do not know what interior changes may have taken place before the return to normal.

It is recommended that all children be vaccinated as early as possible since almost half of the measles cases occur in children under five. The measles vaccine does not interfere with the "baby shots" - Diphtheria - Tetanus, however there should be at least a 14-day interval between the measles vaccination and oral polio (Sabin) or smallpox vaccination.

Although measles vaccines have been available for more than three years, only 12 million children have been vaccinated; most of them under the age of two.

Another 12 million children must be vaccinated if measles is to be eradicated. According to the U. S. Public Health Service, measles could be eliminated within two years if the children of susceptible age were vaccinated.

Press Group To Hold Meet In Montgomery

Montgomery has been chosen as the site for the 97th annual meeting of the Alabama Press Association.

Organization President Porter Harvey, Publisher, The Advertiser's Clearing, Guntersville, said APA has accepted Montgomery Advertiser Co.'s Publisher Harold Martin's invitation to hold its next meeting in the Capital City February 8-11.

The Alabama Press Association, of which this newspaper is a member, is a trade group of the state's 126 dailies and weeklies.

Convention headquarters will be the Jefferson Davis Hotel. More than 500 newsmen from over the state will attend.

Program participants include representatives of the industry from as far north as New York City, as far south as Miami, Florida, and as far west as Norton, Kansas.

The State's national congressmen will meet the press Friday afternoon.

Teen Dance Planned For Friday Night

The Elba Student Council is sponsoring a dance in the Elba Cafeteria immediately following the Elba - Kinston basketball game Friday night.

The music will be furnished by the Stepping Stones and Kinston students are urged to join the Elba students at this dance.

Cross Trails Gets New Books

New books are in store for Cross Trails Regional Library patrons. The Alabama Public Library Service has notified Cross Trails personnel that book orders amounting to \$2,898.39 have been placed with publishers for the region.

George G. Johnson, administrator for the regional library service, said that these books were selected by his staff and librarians of the region's 12 public libraries. "Special consideration was given to needs of the college students and trade schools as well as other paraprofessionals in making the selections," Johnson stated. The Cross Trails area now has trade schools at Opp and Evergreen and college students from Enterprise, Troy and Brewton using its resources. Demands will even be greater when Andalusia's proposed junior college is a reality.

Orders have been placed locally for over a thousand dollars worth of periodicals for the member libraries for the new year. All of these will enrich the library region's assistance to college students as well as other paraprofessionals in making the selections.

Mother Of Year Elba Receives More Search Underway Funds For Project

A search for the Coffee County Mother of the Year is being conducted by the Enterprise Altruistic club. Any individual or organization may nominate any mother who meets the following qualifications:

The nominee must have no children below the age of fifteen.

The nominee must never have been divorced for any reason.

The nominee's health must permit her to represent Coffee County at the State and National Convention should she be a winner.

The nominee's children must indicate that she is a successful mother.

The nominee must have made contributions to the community and/or state including church and civic activities.

Nominations should be made immediately, no later than Feb. 1, 1968. Special instructions, and nomination blanks may be secured from the Elba Student Council, Elba, Ala. 36323.

McCollough also received a Certificate of Appreciation, and commendation letters from the Alabama governor and state director.

In addition to the signature of President Lyndon B. Johnson, the certificates were signed by National Selective Service Director Lt. Gen. Lewis B. Hershey, Governor Wallace and Director Caldwell.

Boys State To Be Held At Troy University

It was announced Saturday in Birmingham by officials of the American Legion that Boys State would be held this June on the campus of Troy State University. The annual event sponsored by the Legionnaires will bring high school juniors from all over Alabama to get a first hand knowledge of government and its functions.

In a meeting held earlier this year at Troy State, however, applicants with officials of the American Legion Boys State Committee, University officials, high school transcript and three letters of recommendation.

Local Citizens Honored For Work

Two Coffee Countians have recently been honored for their work with the Alabama Selective Service System.

They were Harry Adams, Enterprise, for 25 years as Adviser to Registrants for Local Board No. 16, and Samuel S. McCollough, who recently resigned as a board member.

Adams received a Certificate of Appreciation, a silver lapel button, and commendation letters from Alabama Gov. Lurleen B. Wallace and State Director Hugh J. Caldwell, Jr.

McCollough also received a Certificate of Appreciation, and commendation letters from the Alabama governor and state director.

21 APRIL, 22 MAYBE! TIME TO TELL - That is the heading of an article in newspapers this week from New Zealand of a 42-year-old Maori woman who gave birth to her 21st child Sunday and said she and her husband are planning more. She said the 6-pound, 11-ounce boy Sunday was supposed to be her last but that she thinks "we'll have another."

The husband was unavailable for comment. He was at a local tavern, passing out cigars.

was a construction firm and the city of Lake Worth, a suburb of West Palm Beach.

Usually we forget about such cases but I would like to know how this case comes out with God and Company as defendants and if they have to pay the \$25,000.

YOU'VE HEARD of the dogcatcher locking up the dog but now comes a dog that locks the door on a dogcatcher - locked him out of his truck, that is.

In New Hampshire a dogcatcher put a stray animal in the cab of his truck Monday and while he pursued another, the first one managed to push a button that locked the door, and he had left his keys in the ignition and had to smash a window to get into the truck.

NEWSPAPER editors are also people - we are told on good authority. If they sometimes appear cantankerous, there is a reason. A friend of ours in the business recently took time out to list some of those stock phrases he encounters every day which give him sleepers. Such as:

1. "Please use the story as I've given it to you. We want it for our group's scrapbook." (They'll do it every time.)

2. "How come it wasn't in the paper?" (In 95 per cent of the cases it's "was in the paper" the reader just missed it.)

3. "You're invited... and bring your camera." (The greenest cub reporter knows better than to fall for this trap. Besides, a free rubber chicken dinner won't get you any more publicity.)

4. "Are you busy?" (No, we put in a 48-hour week because we like our work so well.)

5. "I know it's Saturday, but would you...?" (We like to work on Sunday even better.)

6. "We want you to be our publicity chairman and..." (Oh no, we won't. You can grind your own axe.)

7. "My uncle is one of your big advertisers, and he'll..." (He's been advertising, it'll hurt him more than the newspaper.)

8. "For \$25, would you keep my name out of the police report?" (Sorry, we can't. If the editor gets pinched, his name will appear, too.)

9. "You should have known about it." (No newspaper employs a mindreader. The city blows the fire whistle to alert firemen, and any newspaper needs advance notice, too.)

10. "Our publicity chairman sent you..." (This is the oldest dodge in the book. What this means is that she forgot to send it.)

--Bradford (Pa.) Era

WHY CONTINUE TO ADVERTISE?

THESE was the title of an article in the Publisher's auxiliary last week and we are quoting it below:

Every newspaperman has heard the story, but it bears repeating: One day, P. K. Wright

IT'S UP TO YOU

By
Houar: E. Kershner, L.H.D.

SCARCELY a ripple was noticed in the International press at some recent statement made by Secretary General U Thant of the United Nations at a Quaker conference held in Greensboro, North Carolina, last summer.

As a foreign diplomat working in the United Nations, at its headquarters in New York, U Thant is a guest of the United States. He enjoys many diplomatic privileges and has no right to publicly express his opinions about the foreign policy of any country and especially, one would think, about the country whose hospitality he enjoys. Nevertheless, with rudeness equal to that of de Gaulle, he chafed our country with aggression in Vietnam and said that it was a war of Communist independence. He denied that it was a war of Communist aggression, and likened it to the war for independence in our country 190 years ago. He openly declared that he expected the Communists to win, and referred to our country as eroding "the standards of international morality."

Let it be remembered that U Thant is the man on whose behalf our country exercised the utmost pressure to obtain for him a second term as Secretary General of the United Nations. This handsomely-paid job, with many perquisites and privileges, will continue to be held by a foreigner who misrepresents and insults every American citizen.

Last year numerous all-

gators were victims of the drought, but Reed said it was still a good breeding season for birds.

And, although wells had to be dug to provide emergency water supplies for cattle and the lack of rain shortened the citrus season and pushed the price of the fruit up, farmers harvested the largest sugar cane crop in history.

This year conservation officials are even more alert to the problems "and we're taking precautions at this time," he said.

Reed said the FCD is presently able to furnish enough water for the Everglades Park and officials are thinking about moving more water into the swamps.

He said his predictions are based on the fact that water levels are lower now than when the state entered the serious dry period a year ago.

The average level in Lake Okechobee at mean sea level Monday was 15.75 feet, he said, down from 15.68 feet last week even though there was prolonged rainfall in some areas of Florida during the past seven days.

Reed said the average depth of Lake Okechobee, the state's natural reservoir, a year ago was 14.70 feet.

This puts the lake about 1.8 feet shallower than it should be at this season, he said.

Conservation areas one and two in Palm Beach and Broward counties are nearly a foot below schedule, he said, and conservation area three in West Broward is about a half-foot low.

The dry season runs roughly from January to May, the conservation aide said, and coincides with the breeding season for many swamp animals.

Reed said the FCD is presently able to furnish enough water for the Everglades Park and officials are thinking about moving more water into the swamps.

He said his predictions are based on the fact that water levels are lower now than when the state entered the serious dry period a year ago.

The average level in Lake Okechobee at mean sea level Monday was 15.75 feet, he said, down from 15.68 feet last week even though there was prolonged rainfall in some areas of Florida during the past seven days.

Reed said the average depth of Lake Okechobee, the state's natural reservoir, a year ago was 14.70 feet.

This puts the lake about 1.8 feet shallower than it should be at this season, he said.

Conservation areas one and two in Palm Beach and Broward counties are nearly a foot below schedule, he said, and conservation area three in West Broward is about a half-foot low.

The dry season runs roughly from January to May, the conservation aide said, and coincides with the breeding season for many swamp animals.

Last year numerous all-

gators were victims of the drought, but Reed said it was still a good breeding season for birds.

And, although wells had to be dug to provide emergency water supplies for cattle and the lack of rain shortened the citrus season and pushed the price of the fruit up, farmers harvested the largest sugar cane crop in history.

This year conservation officials are even more alert to the problems "and we're taking precautions at this time," he said.

Reed said the FCD is presently able to furnish enough water for the Everglades Park and officials are thinking about moving more water into the swamps.

He said his predictions are based on the fact that water levels are lower now than when the state entered the serious dry period a year ago.

Exemption Requirements Stated

By
Houar: E. Kershner, L.H.D.

SCARCELY a ripple was noticed in the International press at some recent statement made by Secretary General U Thant of the United Nations at a Quaker conference held in Greensboro, North Carolina, last summer.

As a foreign diplomat working in the United Nations, at its headquarters in New York, U Thant is a guest of the United States. He enjoys many diplomatic privileges and has no right to publicly express his opinions about the foreign policy of any country and especially, one would think, about the country whose hospitality he enjoys. Nevertheless, with rudeness equal to that of de Gaulle, he chafed our country with aggression in Vietnam and said that it was a war of Communist independence. He denied that it was a war of Communist aggression, and likened it to the war for independence in our country 190 years ago. He openly declared that he expected the Communists to win, and referred to our country as eroding "the standards of international morality."

Let it be remembered that U Thant is the man on whose behalf our country exercised the utmost pressure to obtain for him a second term as Secretary General of the United Nations. This handsomely-paid job, with many perquisites and privileges, will continue to be held by a foreigner who misrepresents and insults every American citizen.

Last year numerous all-

gators were victims of the drought, but Reed said it was still a good breeding season for birds.

And, although wells had to be dug to provide emergency water supplies for cattle and the lack of rain shortened the citrus season and pushed the price of the fruit up, farmers harvested the largest sugar cane crop in history.

Bryan-Powell Wedding Set January 26

Mr. and Mrs. Wilton Bryan of Elba announce the forthcoming marriage of their daughter, Margaret Ann, to Paul Edwin Powell, son of T. Ivey Powell of Florida and the late Mrs. Powell.

Miss Bryan is the granddaughter of Mr. and Mrs. Louis Hudson of Elba and Mrs. Giles D. Bryan of Brantley and the late Mr. Bryan. She is a graduate of Elba High School and is presently a senior at Troy State University.

Her fiancé is the grandson of the late Mr. and Mrs. Coley Jones of Opp and the late Mr. and Mrs. Bibb Powell of Andalusia. He graduated from Florida High School and now attends Troy State University, where he is a junior.

The wedding will be at 6 p.m. January 26 in the home of the bride's parents.

Mrs. Boland Is Honoree At Stork Shower

Mrs. Jean L. Wayne Boland was surprised with a stork shower at 6 p.m. January 6.

Hostesses for the event were: Mrs. Vivian Hargrove, Keadie Smith, Teenie Farris, Mrs. Nell Harvison, Lorene Bryan, Mrs. R.D. Harrison, Mrs. Cecil Wise, Mrs. Foy Engle, Mrs. Dick Davis, and Mrs. Marvin McIlwain. Approximately 38 persons were present.

Miss Barbara Howard of Brundidge was maid of honor, Zackie Storey of Elba was best man. A reception followed the ceremony.

CELEBRATE ANNIVERSARY—Mr. and Mrs. C. M. Martin of the Mixon Cross Roads Community celebrated their 62nd wedding anniversary Sunday. They have four living children: Jim W. Martin of Jack, Joe P. Martin, Mrs. Lloyd Crook, and Mrs. Jack Snellgrove, all of Elba. They have eight grandchildren and eight great-grandchildren.

Mrs. Dorsey Is Hostess To Garden Club

The January meeting of the Azalea Garden Club was held in the home of Mrs. C.E. Dorsey Jr., with Mrs. Mose Ham as co-hostess. Cake and coffee were served to those present.

Mrs. F.H. Murphree introduced Miss Jeanette Garrett, guest speaker, who talked on "The Aesthetic Opportunities of Birmingham."

Mrs. Boyd Murphree, president, presided during the business session. Reports from the officers were given. Present in addition to those mentioned were Mrs. Robert Cannon, Mrs. Fred Clark, Mrs. Bancroft Cooper, Mrs. J. M. Kimme, Mrs. Price Ringo, Mrs. V.D. McGee, Mrs. L. P. Mullins, Mrs. T. T. Rhodes, Miss Zedie Rowe, Mrs. W.H. Taylor, Mrs. Duke Tatum, Mrs. Oscar Vaughan, Mrs. Flourney Whitman, and Mrs. Baxter Bryan.

TIPS FOR HOMEMAKERS

Mirrors may be used for decorative purposes, as well as for usefulness in homes.

Fish is a low calorie food and should be welcomed on the tables of weight watchers.

Homemakers can save money by home baking. Some rolls at the store cost almost twice as much as rolls baked at home.

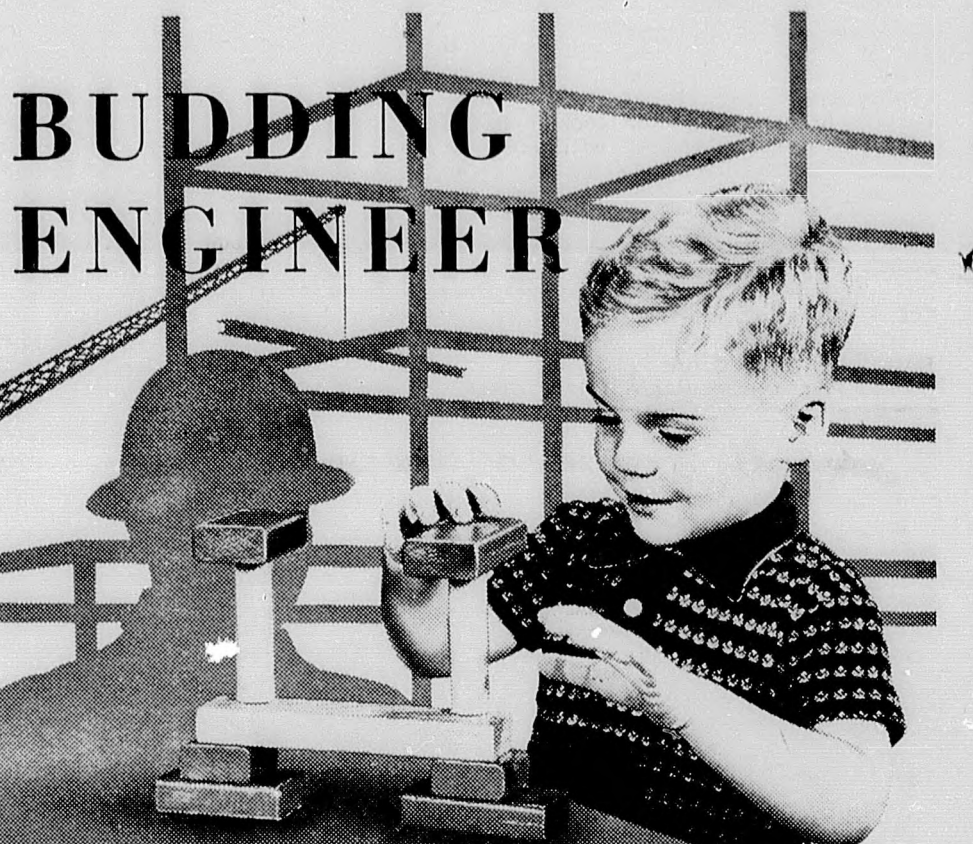

MISS MAVIS MARIE COTTEN
Betrothed

Couple Plans February Nuptials

Mrs. John C. Cotten of Elba and Mrs. Nell Blasi of Melbourne, Fla. The wedding will take place at 6 p.m. February 14 at Westside Baptist Church.

Miss Cotten is also the daughter of the late Mr. Cotten and her fiancé is the son of Cris Blasi of Elba. Friends and relatives of the couple are invited to attend.

BUDDING ENGINEER

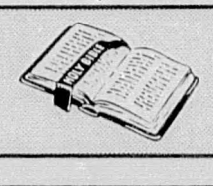

ALL FOR THE CHURCH
The Church is the greatest factor in the life of the child. It is a place of spiritual values. Within a strong Church, better citizenship and character are developed. Every person should attend church regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Can't tell yet whether my son will follow in his Dad's footsteps. Blocks don't make an engineer. But he's learning some of the basic principles of physics with which many professions deal.

On the way home from Church, when he talks about his lesson, I recognize familiar signs . . . character is still in the mold. Deep conviction, bold dedication come later. But he's grasping those basic truths on which great living rises.

For a busy engineer who used to be hit-or-miss in his church attendance, fostering the growth of a soul is a fascinating experience . . . especially as I find my own faith deepening with every reverent day!

Can't tell about his following my footsteps. But I've discovered new dimensions in life following his.

By Tom Casaday, County Extension Chairman

COASTAL BERMUDA

What an opportunity we have to put in large areas of Coastal Bermuda grass! Coastal is without any reservation one of the finest grazing and hay crops that has ever been developed. A lot of folks like Sam Paschal of Enterprise, O. V. Rhoades of Route One, Kinston, John Asher of Route One, Elba, and dozens of other folks are well pleased with their Coastal Bermuda.

Since we aren't planting as many acres of cotton and corn as we once did, Coffee County farmers will have more time to put on pasture improvement. Two or three people in the Wiregrass will plant Coastal Bermuda for so much per acre or you could always get the sprigs and plant them yourself.

Incidentally, for those who have had Coastal for a number of years, it might be good to soil test again if it hasn't been done recently.

GARDEN TOMATOES

Dr. W.H. Greenleaf of the Department of Horticulture worked several years developing the Atkinson tomato. This is a new variety and it has been described as a "dream come true" for tomato fanciers. The Atkinson variety is resistant to root knot nematode and Fusarium wilt. Greenleaf put in 8 years of research in the Department of Horticulture. The Atkinson tomato has a complex heritage, but it all adds up to a good quality tomato and one that ought to produce for Coffee County home gardeners. Its fruit is larger than most varieties, weighing up to a pound but averaging from three-tenths to one-half pound. Check with your plant dealer if you want to get some of these plants.

FARM TRACTOR SAFETY

Two farm tractors were

deliberately up-set in an interesting demonstration in Nebraska back in the fall. The tractors were identical, but one had a protective frame and a seat belt. A dummy was mounted on each tractor to show the effects of a roll-over. The tractors were sent along a small roadway by remote control and then made to turn off an embankment. The speed at the time of over-turn was about 24-miles per hour. The unprotected tractor rolled over and crushed the dummy beneath. The tractor with operator protection came to a rest on its side, its roll being limited by its frame. The dummy was securely held by the seat belt, also untouched by the tractor.

The Extension safety specialist at the University of Nebraska was in charge of this demonstration. The aim was to show farmers that operator protection can save lives and reduce injuries. What about your safety program?

FARMERS TAX GUIDE

We have the 1968 edition of the "Farmers Tax Guide" which has been prepared by the U. S. Treasury Department. We are mailing two or three hundred copies to those who have been getting them in the past. If you don't get your copy, call or write us at the County Extension Office and we will put one in the mail to you.

TRUCK CROPS

King-Pharr Company of Cullman and Uniontown is looking for producers who will grow peas, lima beans and tomatoes. The lima beans will be mechanically harvested with their machines and this will probably encourage Coffee County growers to plant these beans. They would like to have at least 25-30 acres in a community fairly close together so

that the five machines that they send in can pick the entire acreage in one day. We have A. W. Wilson, Marion Sanders and Ray Sanders of New Hope who are thinking about trying to plant some. Also Johnny Maddox with some of his neighbors in New Brockton are making plans. It will take 10 to 12 communities each planting 25 to 30 acres of lima beans. If you are interested get in touch with me or Jake Morrow in Elba for details.

BABY PIG LOSSES

Every time we have a severe freeze, J. R. Speed and I talk about the number of newly born pigs that die in Coffee County in that 24-hour period. We are losing thousands of pigs every year and the resultant income by not having better facilities. Sometimes all that is needed is a heat type light bulb which could be put in. In fact, we visited a place the other day that had a pretty good barn and equipment, but he did not have his heat lamps. He was losing over half of his pigs.

We have the drawings and plans which will show you how to add simple heat devices to your farrowing pens.

Drop Seen In Food Income

The American breadwinner is supplying his family with more and better food and paying less—percentage—wise—of his disposable income for it. The "National Food Situation," published by the Economic Research Service, states that the amount of disposable personal income spent for food in 1967 was about \$96.5 billion, up from \$93 billion in 1966. While consumer income rose seven per cent, the increase in food costs was about four per cent. The report also stated that the outlook for 1968 is for continued expansion of both food expenditures and consumer income. The percentage of income spent for food in 1968 likely will remain near the 1967 level, which was less than 18 per cent of the consumer's disposable income.

PICTURED ABOVE ARE SOME of the men involved in the Coffee County truck crops production and marketing meeting which was held in New Brockton Wednesday night. Plans were made to increase the production of peas, lima beans and tomatoes in Coffee County. Front row, left to right, are A. L. Ward of King-Pharr Company of Cullman, Perry Smith, Extension truck crops specialist, Jake Morrow of Elba. Standing, rear, Robert Stephens, Damascus, and Robert Hussey of Elba.

Vegetable Crops Can Add To Farm Income

Coffee County growers have an excellent opportunity to add to their farm income in 1968 by producing vegetable crops for a major processor. This was the theme of the meeting held for truck crop producers at the New Brockton school lunchroom on Wednesday night.

After a delicious meal sponsored by the five banks in the county, representatives of King Pharr, who has canning plants in both Cullman and Uniontown, discussed the needs for vegetable crops for their plants during 1968. They would like to secure crowder peas, butterbeans, and tomatoes for processing from this area. Peas will be the Silver Skin Crowder, a fairly new variety, that has many advantages over some of the varieties grown in the past. Seed will be furnished by the company, and the price for the peas will be as much, or more, than paid last year, which was \$90 per ton. These will be hand picked, and grown-

ers who will need labor for picking either the peas or tomatoes have been assured of this labor by State Employment offices, both in Enterprise and Troy. The company can use 400-500 acres of peas from the area.

Butterbeans will be machine harvested, with the machine furnished by the company. The company can use 200-300 acres from this area, but these should be in fairly large acreages for machine harvest. If 2 or 3 adjoining farmers can plant 15-20 acres each, this would facilitate harvesting. The variety used will be Thoroughbred and seed are available from the company.

Tomatoes for processing can be used from 200-300 acres in the area. These will be hand harvested. Tomatoes, and around 50-100 acres need to be grown in the same community, so they can be loaded on a truck at the same time. The varieties will be either Roma or Ohio Grande, both of which were developed for canning. Seed, also made available by the company, will be planted directly in the field, and later thinned to about one plant every 6 to 8 inches. Contract prices on any of these vegetable crops will be available by the middle of January, if you are interested in growing some of these crops, contact Jake Morrow at Elba.

New Hope 4-H Girls, Boys Hold Joint Meeting

The regular meeting of New Hope Elementary girls 4-H Club was held Wed., Jan. 10, 1968, with a joint meeting with the boys in the library of the school. The meeting was called to order by Debbie Helms, president. A song was led by David Stockman, Edsel Stone, Lisa Tindol, and Kathy Senn song leaders. The devotion was given by Maxine Lewis, Enorris Martin, vice-president led us in the Pledge of Allegiance to the American Flag and our 4-H Club Pledge. Joe Ann Acerman and Buddy Carter, our secretaries led the roll. 49 members were present. Our secretaries then read the minutes of our last meeting. The minutes were read and approved. The program was on "Correct Fusing of Electrical Appliances" by Mr. Dan Presley. The meeting was adjourned to our meeting in February.

COFFEE NEWS & CHAT

ROSES While talking to a group of homemakers recently on

den information to answer their questions on when and where to plant.

Plant roses during the winter months because early or late winter plantings are decidedly better because plants are dormant. Also growth will continue during cold weather and give plants a well developed root system by the time warm weather arrives.

Select a planting site which provides roses with at least six hours of direct sunlight a day. Avoid planting in areas that might have surface roots of maples, elms, oaks, and poplars, since they are big competitors for moisture and plant food.

EXTRA CREAM? If you have more whipped cream than you need, drop it in individual mounts on a baking sheet and freeze. Then place in a freezer container. It can be used immediately as it comes from the freezer.

APPLES Apples are plentiful now and are at good prices. You may be a homemaker who takes advantage of plentiful foods on the market. If you do, then you'll want to get the most for your money when buying apples. To get the most from the fresh apples you buy, keep them cool. Apples kept at room temperature lose their fresh crisp quality. They keep best at 30 to 32 degrees Fahrenheit with 85 to 90 per cent humidity. So, if you can, buy them from refrigerated displays and store them in your refrigerator until you use them.

REPELLENT FINISH Recently I bought a soil repellent finish to spray on a kitchen table cloth which is fabric. After its application, I was pleased with the results, because it certainly protects the cloth from stains, oils and food spots. It has other uses too. Slipcovers, upholstery fabrics, draperies and bedspreads are much easier to care for when soil repellents have been added for protection.

Many soil repellent finishes keep foods or liquids from soaking into the fabric. Some guard against oil-vine stains as well as water-borne. Check the label to be sure of the protection you can expect. Some stain-resistant finishes last for the life of the fabric. Ask for this added feature when you buy home furnishing fabrics.

PATTERNS Beginning this month new sizing became available in some garment patterns from each of the four major pattern companies. The name, new sizing, appears on each pattern designed according to the revised body measurements. New sizing, which was approved by the measurement standard committee of the pattern fashion industry, is an attempt to make the size of patterns more closely correspond to the size of ready-to-wear. You will find measurement charts for the new sizing and the former sizing in the pattern catalogue. Since there were many patterns designed prior to January 1, 1968, you must refer to both measurement charts and know your pattern size for both. Measurements for some pattern types such as children's and men's were not changed.

Coleman Is Job Corps Grad

James E. Coleman, 21 of Elba, was one of 26 Job Corpsmen who graduated on December 15 from the Mechanical Occupations Campus at the Lincoln Center, Job Corps Center for Men.

Coleman entered the Lincoln Center on October 15 and received extensive training in the automotive mechanical field. The Lincoln Job Corps Center, operated by Northern Systems, is an auxiliary of Northern Natural Gas Co., Omaha, Neb., offers vocational training to young men through 21 in three general areas -- Culinary Occupations, Technical Occupations including heating, air conditioning, refrigeration and the building trades, and in Mechanical Occupations.

TWO EXTENSION COUNCIL MEMBERS, left Mrs. Albert Dyess and right Mrs. Johnnie B. Johnson, are explaining to Miss Virginia Sanders some of the plans for county extension work to be conducted in the area of consumer education. Mrs. Dyess lives in the Bluff Springs community, Mrs. Johnson in Curtis vicinity and Miss Sanders is Extension Home Agent who is in charge of girls 4-H Club work.

DISCUSSING 4-H WORK at Goodman Junior High School with Mrs. Margaret Johnson, seated right, and Mrs. Hilda Lunsford, local 4-H leaders, are Teresa Kelley, President of the elementary girls' club and Ralph Allen, President of the elementary boys' club. Boys and girls at Goodman are always outstanding in 4-H Club.

Goodman PTA Meets

The Goodman Junior High School PTA held their monthly meeting Tuesday, January 9, at seven o'clock in the evening.

Devotional was given by Mrs. Pauline Allen. Then after some songs, Mrs. Theodora Howell gave a reading entitled "But Judge What Is Proper Discipline" which was written by a well-known psychologist. Then Mrs. Robert English reviewed an article from the "Readers Digest," entitled "Some Retarded Children Are Not."

During the business session, it was decided to in the building. This purchase new neon lights for the elementary rooms the Goodman PTA.

NUMBER 26

Measles Eradication Underway

COUNTY TO GIVE SHOTS THIS MONTH

The Coffee County Health Department in co-operation with the Coffee County Medical Society will conduct a mass measles vaccine program in the county on January 24, 25 and 26th, Dr. C. D. McLeod, County Health Officer, stated that this would be part of a nationwide measles eradication program. Without this type program, Dr. McLeod continued, projections through 1974 show that the accumulated number of measles cases will top 7,000,000. During the same period of time, as a result of measles complications, there will be about 7,400 of encephalitis, 2,300 cases of mental retardation and some 730 deaths. With mass immunization programs, the accumulated number of measles cases during the next ten years could be reduced by 90%. And by 1990 encephalitis, mental retardation and death due to measles could be virtually eliminated. All children from 12 months of age through the six grade of school are eligible for free vaccine.

Children that have already had red measles or the measles vaccine are adequately immunized and do not need additional protection, however, red or seven day measles should not be confused with small three day measles. If there is any doubt as to the type measles a child has had, it is recommended that the vaccine be taken. Children should not have the vaccine that are sick with a fever, allergic to eggs or egg products or under treatment for some chronic disease.

Several specially trained teams from the State Health Department will work with local health nurses in administering the vaccine. Hyposyrin injections or guns will be employed during the program which will eliminate the use of needles and syringes and make the entire operation much faster and less painful to the child. Arrangements have been made with the City and County Superintendents of Education to vaccinate school children from their classrooms. Dr. McLeod emphasized the fact, however, that no child would receive the vaccine without a signed permission slip from their parents or guardian. Parents with pre-school children are encouraged to take their children to the nearest school scheduled in their community.

Clinic schedules are listed as follows: January 24, 1968: College Street School, Hillcrest School, Mount Pleasant School, Goodman Elementary School, Holley Hill School, Pineale School. January 25, 1968: Carr-ell Street School, Elba Elementary School, Elba High School, Mulberry School. January 26, 1968: Warren Smith School, Kinston School, New Hope School, Zion Chapel School.

AT BIRMINGHAM-SOUTHERN
Birmingham - Southern College's annual Scholarship Day, when high school students compete for four-year scholarships valued at \$4,000 each, will be held Feb. 10.

President Howard M. Phillips said the College will award five Phi Beta Kappa Scholarships under a program that is 28 years old this year.

High school seniors are invited to come to the Hill-top campus in Birmingham for a day of tests, interviews and tours of facilities. Registration opens at 8 a.m., examinations begin at 9 a.m., and the names of finalists will be announced at a 12:30 p.m. luncheon.

The Alabama Press Association, of which this newspaper is a member, is a trade group of the state's 126 dailies and weeklies.

Convention headquarters will be the Jefferson Davis Hotel. More than 300 newsmen from over the state will attend. Program participants include representatives of the industry from as far north as New York City, as far south as Miami, Florida, and as far west as Norton, Kansas.

The State's national congressmen will meet the press Friday afternoon.

KENNETH HUDSON AND MRS. PAUL ROTEN were two of the only thirty local citizens donating blood Monday during the regular visit of the Red Cross Bloodmobile. The quota for this trip was 125 pints. Some of the short turnout can be attributed to the flu bug.

The blood collection was held at the Westside Baptist Church and local citizens volunteered to assist the nurses free of charge. The next regular scheduled trip to Elba for the bloodmobile is in May of this year.

Mother Of Year Elba Receives More Search Underway Funds For Project

A search for the Coffee County Mother of the Year is being conducted by the Enterprise Altruism Club. Any individual or organization may nominate a mother who meets the following qualifications: The nominee must have no children below the age of fifteen. The nominee must never have been divorced for any reason.

The nominee's health must permit her to represent Coffee County at the State and National Convention should she be a winner.

The nominee must have made contributions to the community and/or state, including church and civic activities. Nominations should be made immediately, no later than Feb. 1, 1968. Special instructions and nomination blanks may be secured from Mrs. Tera Byrd Averett, 1001 E. Park Ave., Enterprise, Alabama.

Two Coffee Countians have recently been non-honored for their work with the Alabama Selective Service System.

They were Harry Adams, Enterprise, for 25 years an Adviser to Registrants for Local Board No. 16, and Samuel S. McCollough, who recently resigned as a board member. Adams received a Certificate of Appreciation, a silver lapel button, and commendation letters from Alabama Gov. Lurleen B. Wallace and State Director Hugh J. Caldwell, Jr.

McCullough also received a Certificate of Appreciation, and commendation letters from the Alabama governor and state director.

In addition to the signature of President Lyndon B. Johnson, the certificates were signed by National Selective Service Director Lt. Gen. Lewis B. Hersey, Governor Wallace and Director Caldwell.

The Elba Student Council is sponsoring a dance in the Elba Cafeteria immediately following the Elba - Kinston basketball game Friday night. The music will be furnished by the Stepping Stones and Kinston students are urged to join the Elba students at this dance.

NOTHING TAKES THE PLACE OF GOOD PLANNING. The leaders of the New Brockton 5th and 6th grade club study plans to improve 4-H Club in New Brockton School.

Seated is Miss Mollie Belle Sawyer, local 4-H leader. Standing, left to right, Mrs. Anita Evans, boys' local 4-H leader, Kaye Tindol, President of the New Brockton 5th and 6th Grade Girls' Club; Mrs. Johnny Shoemaker, boys local 4-H leader; and Wayne Lee, President of the 5th and 6th grade boys' club.

Judson Has Scholarships Available

Scholarships with a potential value of \$2000 each will be awarded some lucky high school senior girls this spring, as a result of competitive examinations to be given Feb. 23 at Judson College.

Lockhart Competitive Scholarships are open to young women who are high school seniors or otherwise wise qualified, with the exception of those who have had college work. They fall into two categories: general scholarshipships in the amount of \$500 yearly, and fine arts scholarships for students majoring in music, drama or art. These are also in the amount of \$500.

Winners of general scholarships may follow any degree program. Twenty-six major fields are offered at the Alabama Baptist woman's college.

Awards are based on standing in the competitive examinations, high school records, and available test scores. The character of the applicant and her need will also be taken into consideration.

No formal application is necessary in order to compete this year at Troy State University. However, applicants should send to the college's Student Aid Committee, or to the examination, a high school transcript and three letters of recommendation.

Seated is Miss Mollie Belle Sawyer, local 4-H leader. Standing, left to right, Mrs. Anita Evans, boys' local 4-H leader, Kaye Tindol, President of the New Brockton 5th and 6th Grade Girls' Club; Mrs. Johnny Shoemaker, boys local 4-H leader; and Wayne Lee, President of the 5th and 6th grade boys' club.

Standing, left to right, Mrs. Anita Evans, boys' local 4-H leader, Kaye Tindol, President of the New Brockton 5th and 6th Grade Girls' Club; Mrs. Johnny Shoemaker, boys local 4-H leader; and Wayne Lee, President of the 5th and 6th grade boys' club.

Seated is Miss Mollie Belle Sawyer, local 4-H leader. Standing, left to right, Mrs. Anita Evans, boys' local 4-H leader, Kaye Tindol, President of the New Brockton 5th and 6th Grade Girls' Club; Mrs. Johnny Shoemaker, boys local 4-H leader; and Wayne Lee, President of the 5th and 6th grade boys' club.

COFFEE NEWS & CHAT

ROSES While talking to a group of homemakers recently on

den information to answer their questions on when and where to plant.

Plant roses during the winter months because early or late winter plantings are decidedly better because plants are dormant. Also growth will continue during cold weather and give plants a well developed root system by the time warm weather arrives.

Select a planting site which provides roses with at least six hours of direct sunlight a day. Avoid planting in areas that might have surface roots of maples, elms, oaks, and poplars, since they are big competitors for moisture and plant food.

EXTRA CREAM? If you have more whipped cream than you need, drop it in individual mounts on a baking sheet and freeze. Then place in a freezer container. It can be used immediately as it comes from the freezer.

APPLES Apples are plentiful now and are at good prices. You may be a homemaker who takes advantage of plentiful foods on the market. If you do, then you'll want to get the most for your money when buying apples. To get the most from the fresh apples you buy, keep them cool. Apples kept at room temperature lose their fresh crisp quality. They keep best at 30 to 32 degrees Fahrenheit with 85 to 90 per cent humidity. So, if you can, buy them from refrigerated displays and store them in your refrigerator until you use them.

REPELLENT FINISH Recently I bought a soil repellent finish to spray on a kitchen table cloth which is fabric. After its application, I was pleased with the results, because it certainly protects the cloth from stains, oils and food spots. It has other uses too. Slipcovers, upholstery fabrics, draperies and bedspreads are much easier to care for when soil repellents have been added for protection.

Many soil repellent finishes keep foods or liquids from soaking into the fabric. Some guard against oil-vine stains as well as water-borne. Check the label to be sure of the protection you can expect. Some stain-resistant finishes last for the life of the fabric. Ask for this added feature when you buy home furnishing fabrics.

PATTERNS Beginning this month new sizing became available in some garment patterns from each of the four major pattern companies. The name, new sizing, appears on each pattern designed according to the revised body measurements. New sizing, which was approved by the measurement standard committee of the pattern fashion industry, is an attempt to make the size of patterns correspond to the size of ready-to-wear. You will find measurement charts for the new sizing and the former sizing in the pattern catalogue. Since there were many patterns designed prior to January 1, 1968, you must refer to both measurement charts and know your pattern size for both. Measurements for some pattern types such as children's and men's were not changed.

Coleman Is Job Corps Grad

James E. Coleman, 21 of Elba, was one of 26 Job Corpsmen who graduated on December 15 from the Mechanical Occupations Campus at the Lincoln Center, Job Corps Center for Men.

Coleman entered the Lincoln Center on October 15 and received extensive training in the automotive mechanical field. The Lincoln Job Corps Center, operated by Northern Systems, is an auxiliary of Northern Natural Gas Co., Omaha, Neb., offers vocational training to young men through 21 in three general areas -- Culinary Occupations, Technical Occupations including heating, air conditioning, refrigeration and the building trades, and in Mechanical Occupations.

TWO EXTENSION COUNCIL MEMBERS, left Mrs. Albert Dyess and right Mrs. Johnnie B. Johnson, are explaining to Miss Virginia Sanders some of the plans for county extension work to be conducted in the area of consumer education. Mrs. Dyess lives in the Bluff Springs community, Mrs. Johnson in Curtis vicinity and Miss Sanders is Extension Home Agent who is in charge of girls 4-H Club work.

DISCUSSING 4-H WORK at Goodman Junior High School with Mrs. Margaret Johnson, seated right, and Mrs. Hilda Lunsford, local 4-H leaders, are Teresa Kelley, President of the elementary girls' club and Ralph Allen, President of the elementary boys' club. Boys and girls at Goodman are always outstanding in 4-H Club.

Goodman PTA Meets

The Goodman Junior High School PTA held their monthly meeting Tuesday, January 9, at seven o'clock in the evening. Devotional was given by Mrs. Pauline Allen. Then after some songs, Mrs. Theodora Howell gave a reading entitled "But Judge What Is Proper Discipline" which was written by a well-known psychologist. Then Mrs. Robert English reviewed an article from the "Readers Digest," entitled "Some Retarded Children Are Not."

During the business session, it was decided to in the building. This purchase new neon lights for the elementary rooms the Goodman PTA.

Measles Eradication Underway

COUNTY TO GIVE SHOTS THIS MONTH

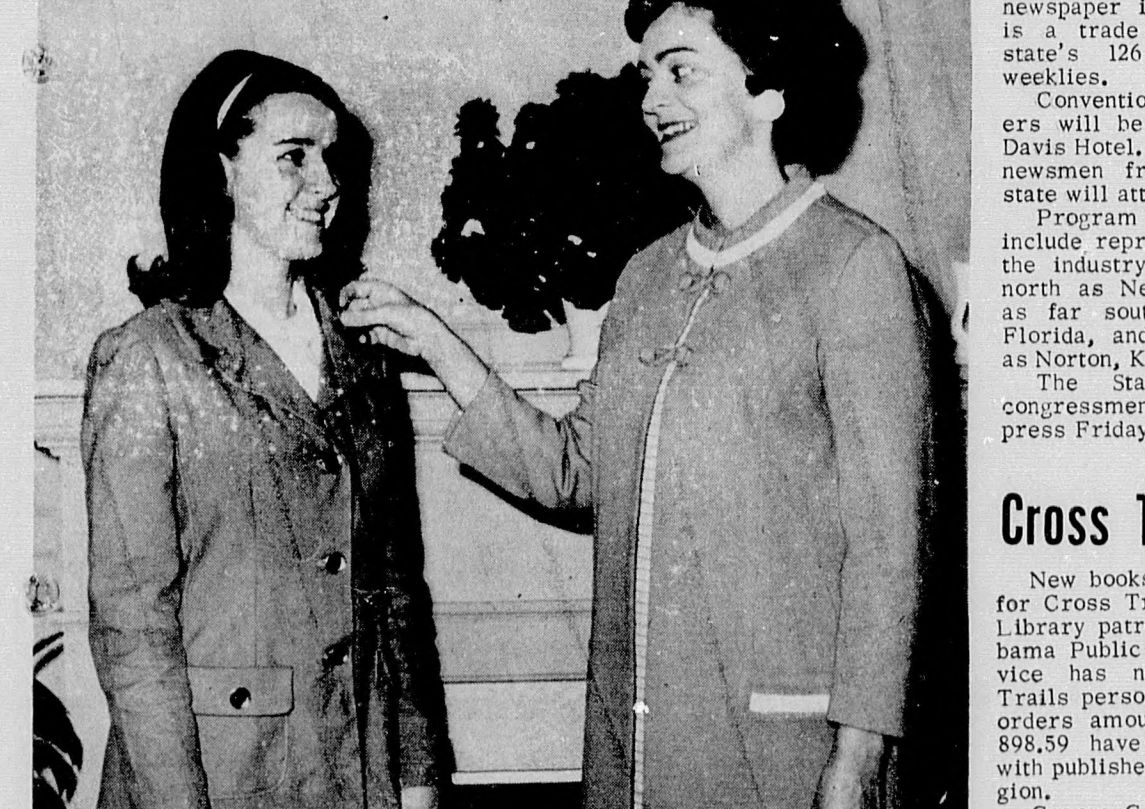

The Coffee County Health Department in co-operation with the Coffee County Medical Society will conduct a mass measles vaccine program in the county on January 24, 25 and 26th, Dr. C. D. McLeod, County Health Officer, stated that this would be part of a nationwide measles eradication program. Without this type program, Dr. McLeod continued, projections through 1974 show that the accumulated number of measles cases will top 7,000,000. During the same period of time, as a result of measles complications, there will be about 7,400 of encephalitis, 2,300 cases of mental retardation and some 730 deaths. With mass immunization programs, the accumulated number of measles cases during the next ten years could be reduced by 90%. And by 1969 encephalitis, mental retardation and death due to measles could be virtually eliminated. All children from 12 months of age through the six grade of school are eligible for free vaccine.

Children that have already had red measles or the measles vaccine are adequately immunized and do not need additional protection, however, red or seven day measles should not be confused with small three day measles. If there is any doubt as to the type measles a child has had, it is recommended that the child take the vaccine. Children should not have the vaccine that are sick with a fever, allergic to eggs or egg products or under treatment for some chronic disease. Several specially trained teams from the State Health Department will work with local health nurses in administering the vaccine. Hyposyrin injections or guns will be employed during the program which will eliminate the use of needles and syringes and make the entire operation much faster and less painful to the child. Arrangements have been made with the City and County Superintendents of Education to vaccinate school children from their classrooms. Dr. McLeod emphasized the fact, however, that no child would receive the vaccine without a signed permission slip from their parents or guardian. Parents with pre-school children are encouraged to take their children to the nearest school scheduled in their community.

Clinic schedules are listed as follows: January 24, 1968: College Street School, Hillcrest School, Mount Pleasant School, Goodman Elementary School, Holley Hill School, Pineale School. January 25, 1968: Carr-ell Street School, Elba Elementary School, Elba High School, Mulberry School. January 26, 1968: Warren Smith School, Kinston School, New Hope School, Zion Chapel School.

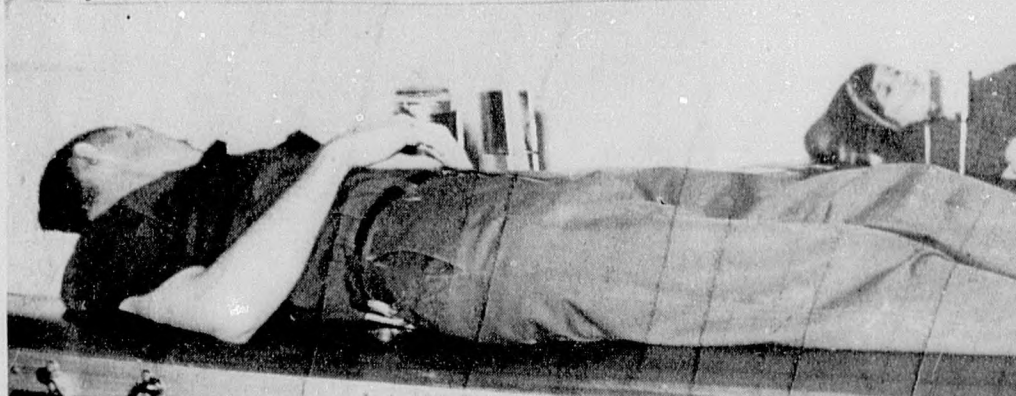

Scholarship Day Is Announced
Birmingham - Southern College's annual Scholarship Day, when high school students compete for four-year scholarships valued at \$4,000 each, will be held Feb. 10. President Howard M. Phillips said the College will award five Phi Beta Kappa Scholarships under a program that is 28 years old this year.

High school seniors are invited to come to the Hill-top campus in Birmingham for a day of tests, interviews and tours of facilities. Registration opens at 8 a.m., examinations begin at 9 a.m., and the names of finalists will be announced at a 12:30 p.m. luncheon.

MISS PRIOR, LEFT, AND MRS. YOUNG
Miss Prior Wins Homemaker Award
Because she finished her home economics teacher, Mrs. Mary P. Young, Suzanne's achievement has made her eligible for state and national scholarship awards. A state Homemaker of Tomorrow runner-up and runner-up of the Elba Homemaker of Tomorrow will be selected from the High School, according to the state. The state winner will receive \$1,500 scholarship. The runner-up will earn a \$500 educational grant. The 603,798 girls from 15,073 schools registering for the 1968 Search established a new record for the program.

KENNETH HUDSON AND MRS. PAUL ROTEN were two of the only thirty local citizens donating blood Monday during the regular visit of the Red Cross Bloodmobile. The quota for this trip was 125 pints. Some of the short turnout can be attributed to the flu bug. The blood collection was held at the Westside Baptist Church and local citizens volunteered to assist the nurses free of charge. The next regular scheduled trip to Elba for the bloodmobile is in May of this year.

Mother Of Year Elba Receives More Search Underway Funds For Project

A search for the Coffee County Mother of the Year is being conducted by the Enterprise Enterprise club. Any individual or organization may nominate a mother who meets the following qualifications: The nominee must have no children below the age of fifteen. The nominee must never have been divorced for any reason. The nominee's health must permit her to represent Coffee County at the State and National Convention should she be a winner.

The nominee's health must permit her to represent Coffee County at the State and National Convention should she be a winner. The nominee must have made contributions to the community and/or state, including church and civic activities. Nominations should be made immediately, no later than Feb. 1, 1968. Special instructions and nomination blanks may be secured from Mrs. Tera Byrd Averett, 1001 E. Park Ave., Enterprise, Alabama.

Boys State To Be Held At Troy University
It was announced Saturday in Birmingham by officials of the American Legion that Boys State will be held this June on the campus of Troy State University. The annual event sponsored by the Legionaires will bring high school juniors from all over Alabama to the TSU campus to get a first hand knowledge of government and its functions. In addition to the signature of President Lyndon B. Johnson, the certificates were signed by National Selective Service Director Lt. Gen. Lewis B. Hershey, Governor Wallace and Director Caldwell.

Teen Dance Planned For Friday Night
The Elba Student Council is sponsoring a dance in the Elba Cafeteria immediately following the Elba - Kinston basketball game Friday night. The music will be furnished by the Stepping Stones and Kinston students are urged to join the Elba students at this dance.

Cross Trails Gets New Books
New books are in store for Cross Trails Regional Library patrons. The Alabama Public Library Service has notified Cross Trails personnel that book orders amounting to \$12,898.99 have been placed with publishers for the region. George G. Johnson, administrator for the regional library service, said that these books were selected by his staff and librarians of the region's libraries. All of these will enrich the library system's assistance to college students and trade dealers as well as other school students in making trons.

SHOP AT HOME FIRST
Seated is Miss Mollie Belle Sawyer, local 4-H leader, standing, left to right, Mrs. Anita Evans, boys' local 4-H leader, Kaye Tindol, President of the New Brockton 5th and 6th Grade Girls' Club, Mrs. Johnny Shoemaker, boys local 4-H leader, and Wayne Lee, President of the 5th and 6th grade boys' club.

NOTHING TAKES THE PLACE OF GOOD PLANNING. The leaders of the New Brockton 5th and 6th grade club study plans to improve 4-H Club in New Brockton School.

Daniel Windham Named Honor Grad At Auburn

Second Lieutenant Daniel O. Windham, 22, son of Mr. and Mrs. William O. Windham, New Brockton, was named Auburn University's 1967-68 Honor Graduate of the military branch of the university. He was a member of the Phi Kappa Phi Fraternity and the Sigma Chi Fraternity.

Methodists Plan Program

A Christian Witness Mission is to be held at the Elba Methodist Church beginning Friday, January 26, and continuing through Sunday, January 28, according to an announcement made by the Minister, Dr. Thomas S. Harris.

THE BOLL WEEVIL OF ENTERPRISE'S famous monument towers over the Enterprise State Junior College cheerleaders, probably the only cheering squad in the world dedicated to the praise of the cotton pest. Clockwise from the base of the monument are Marsha Lowery, Elba; Barbara Dean, Hartford; Anna Kidd, New Brockton; Martha Dubose, Elba; Ellen Pierce, Opp; and Linda Coon, Elba, captain.

Draft Call To Get 4 From Coffee County

State Director Hugh J. Caldwell, Jr., said today that Alabama will call 68 registrants to the Armed Forces Examining and Induction Station in February to meet the Selective Service quota of 480 men.

The national draft call for February is 23,300 men a drop from the January quota of 34,000.

Shirt Factory Employees' Union Signs Contract

Recent contract negotiations have been concluded between the Amalgamated Clothing Workers and Client-Peabody Company, Elba, Ala., and the Elba Shirt Factory.

SBA Loans Total 27 In State

The Birmingham Regional office of the Small Business Administration approved 27 loans during December, 1967, for \$1,299,500.00. Over fifty percent of these loans were in participation with banks.

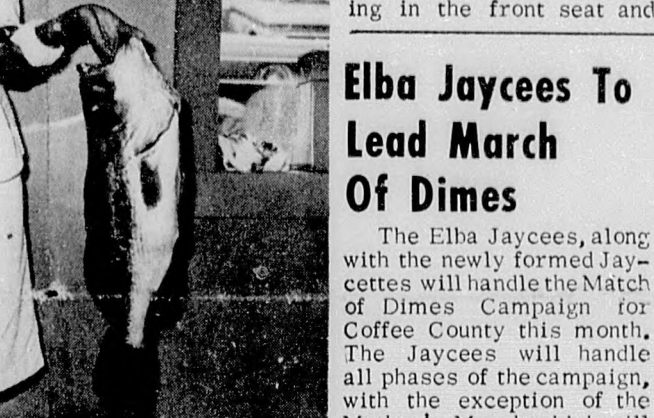

Kinston High Plans Annual Homecoming

Kinston High School will observe Homecoming Feb. 2. A parade will be held at the school beginning at one o'clock, Barbecue plates will be on sale beginning at 4 o'clock. At 6 p.m. the band will play the B team of Pleasant Home A team at 7:30.

Farmers To Benefit From New ASC Service

Farmers will benefit from a new reporting service which has been inaugurated by ASCS, Roy L. Ellis, Chairman of the Coffee County Committee announced today.

It is estimated that over three million farmers will receive this report, he said. This information is being gathered from county offices and summarized by

BIG FISH... Mrs. Tillman Lindsey holds a ten pound bass which was caught in a private pond by her husband recently.

Tillman Hunts For Killers Of Man

Coffee County Sheriff H. D. Tillman stated this week that law enforcement officials are still searching for the person or persons who beat service station attendant Buford L. Olley, of Enterprise, to death last Sunday morning. A reward totaling \$2,500 has been offered in the case.

Retire From Senate

When my term expires on January 3, 1969, I will have served 31 years in the United States Senate and 15 years in the House of Representatives for a combined total of 46 years in the Congress, longer than any other Alabamian.

Wreck Injures Local Youths

A one car crash early Wednesday morning caused the three children of Mr. and Mrs. George L. Davis to miss school that day. Their small compact car was traveling toward town on a day of school when the driver, Miss Diane Davis, age 16, lost control and the car veered off the road to the right and turned over twice.

Elba Jaycees To Lead March Of Dimes

The Elba Jaycees, along with the newly formed Jaycees will handle the March of Dimes campaign for Coffee County this month. The Jaycees will handle all phases of the campaign, with the exception of the Mother's March which will be promoted by the Jaycees.

New Brockton Plans Gym Dedication

The New Brockton Parent Teacher Organization has announced the plans for dedication of the new high school gymnasium and homecoming activities of January 27th (Saturday). The activities begin at 2 p.m. with the dedication and a barbecue supper is planned from 4 to 6 p.m.

COOK SCORES AT CLUB

Representative Drexel Cook has joined the elite group this month. He is one of only three golfers to ever score a hole-in-one on the Elba Country Club golf course. Cook made his perfect swing on hole #8 with a "4" iron.

Stephens To Research The Yankee Laws

District Attorney Lewey Stephens is one of twenty-five Alabama lawyers who were called by former Governor George Wallace and asked to go to the other states in the union and find out what is necessary for Wallace to get on the presidential ballot in that state.
